**HB 4490 & HB 4491** Great Lakes Shooting Sports Association supports both of these bills

**HB 5039 & HB 5040** GLSSA supports both of these bills.

**HB 5108** This bill exempting veterans from the training requirements would certainly jeopardize the reciprocal agreements with other states that Michigan CPL holders currently enjoy.

Exempting veterans from the civil liability training required currently, would not be conducive to maintaining reciprocal agreements with other states and indeed it appears that this bill would not even require proof of handgun training via their DD 214 showing that they had qualified with the M4 side arm (or other side arms). GLSSA does not support HB 5108
